Overview of AI

- AI
- Human Agent vs AI Agent
- Enterprise AI
- Curriculum

Reality of AI

① types of AI ✓

② Availability of AI

③ Usage of AI

④ Capabilities of AI

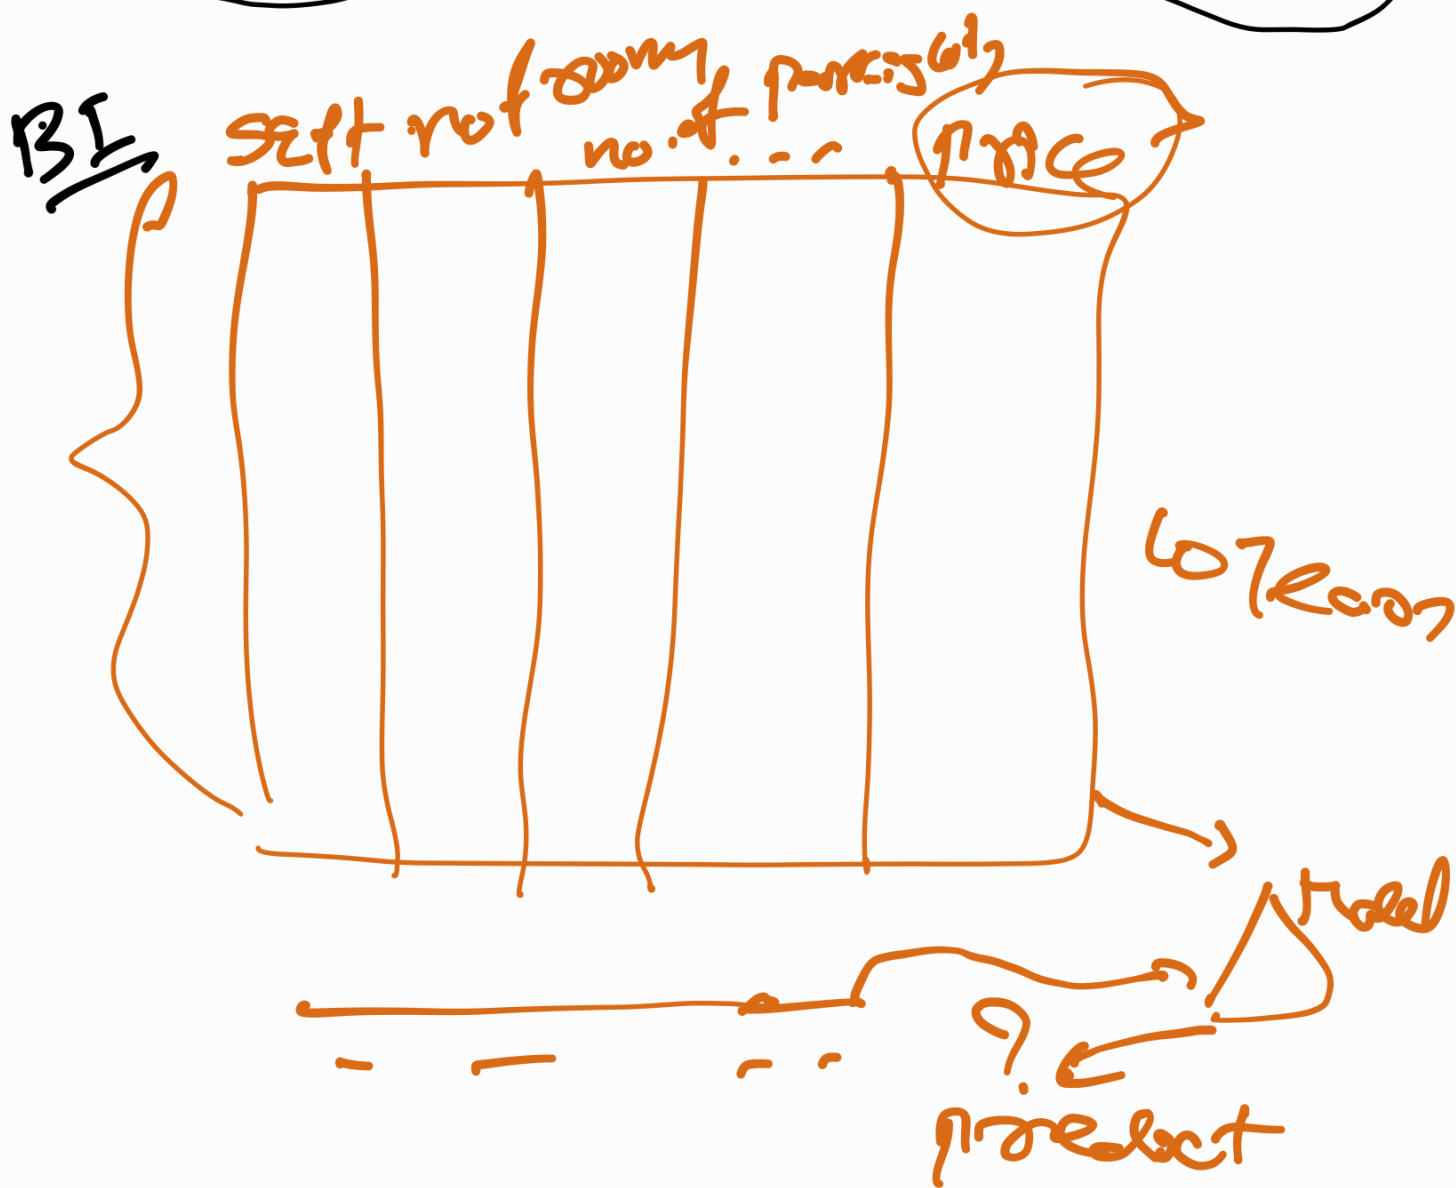

⑤ Impact

efficiency
condense
all the job

⑥ on job ✓

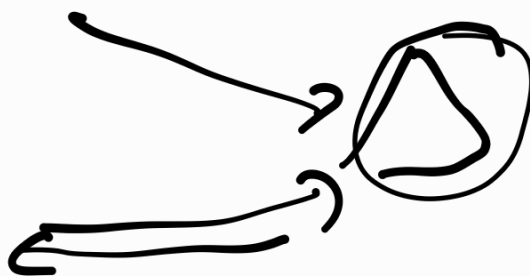

⑦ System requirements

Types of AI

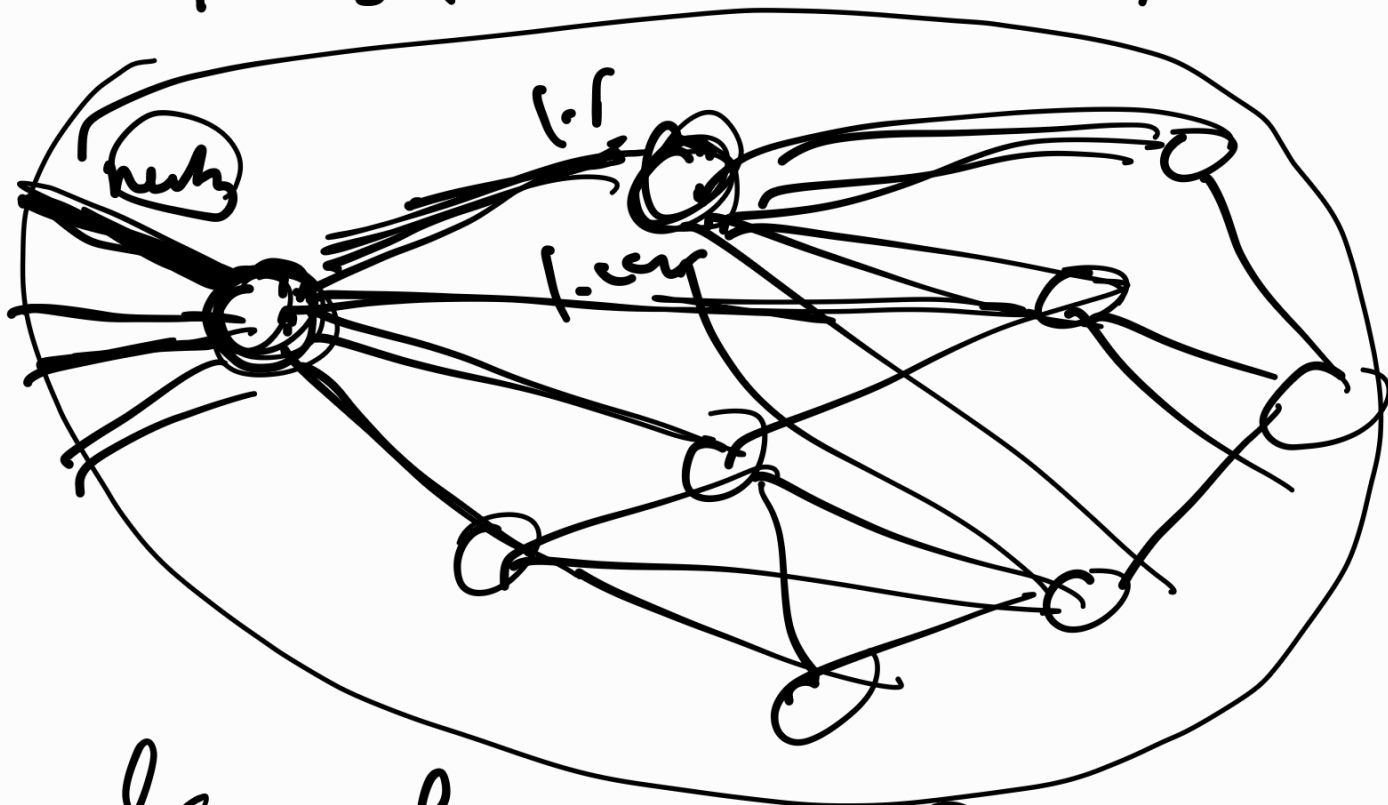

ANI

voice
text / natural language
video
...

neural network model

learn from data

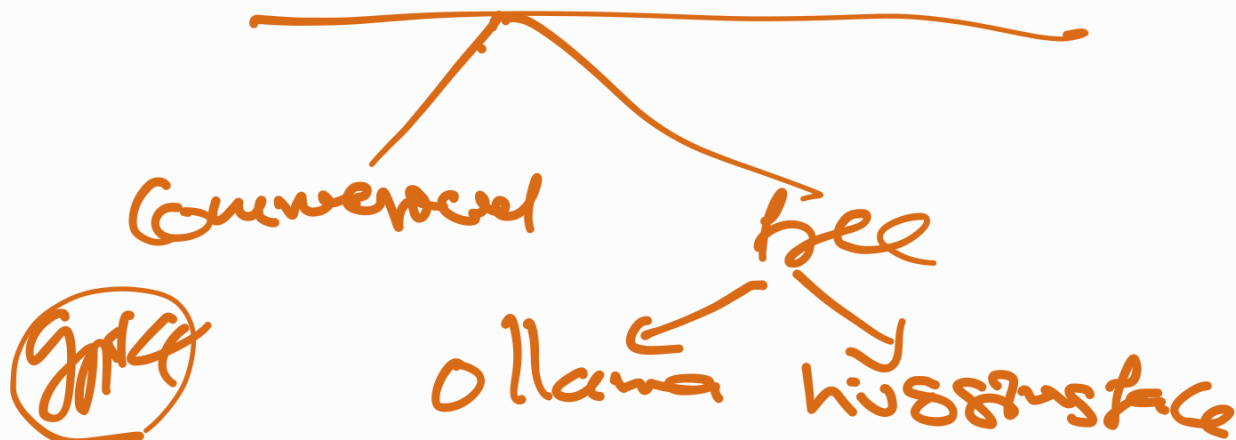

learning is captured by
weights of neural
fully connected

.....

1 million connection — 1 million
parameters
1 billion connection — 1 billion
parameters

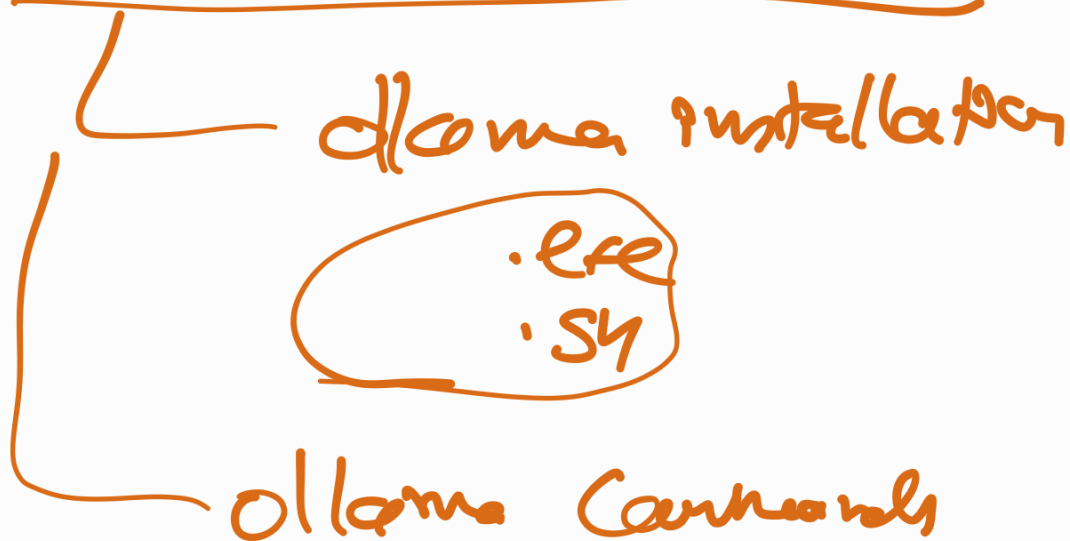

10 billion
17 billion
10 billion

Availability of AI

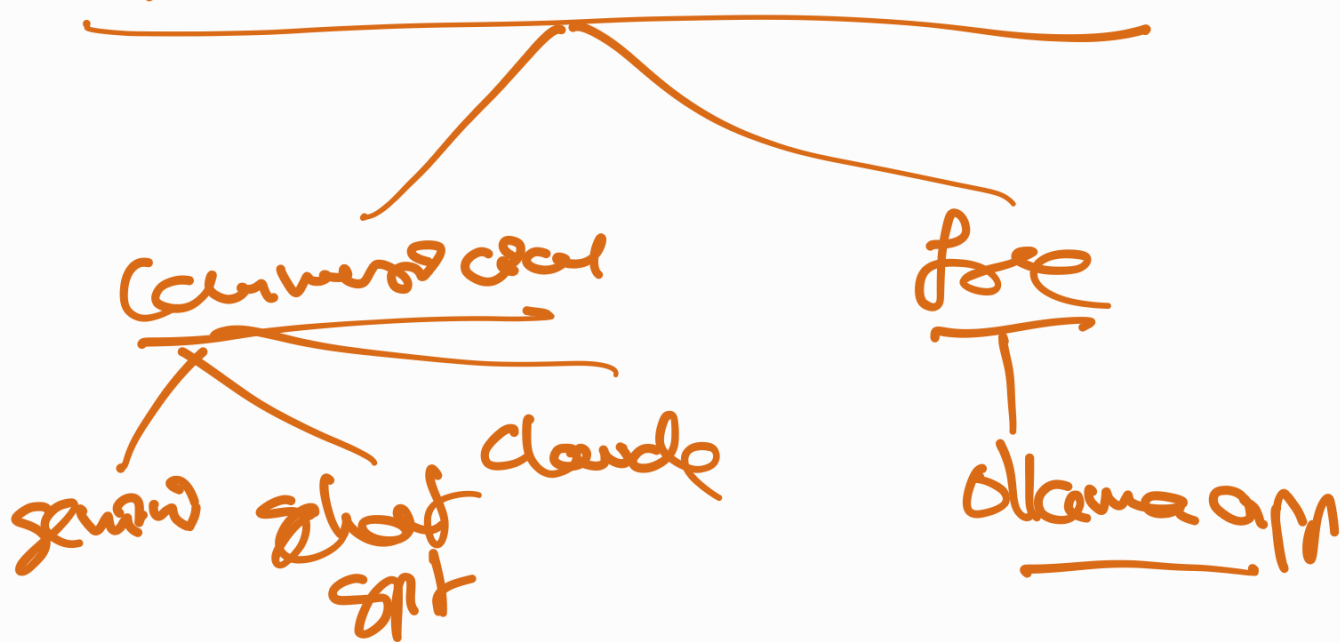

gpt -> ~~gpt~~ - generated -
unified. format

utilization free models

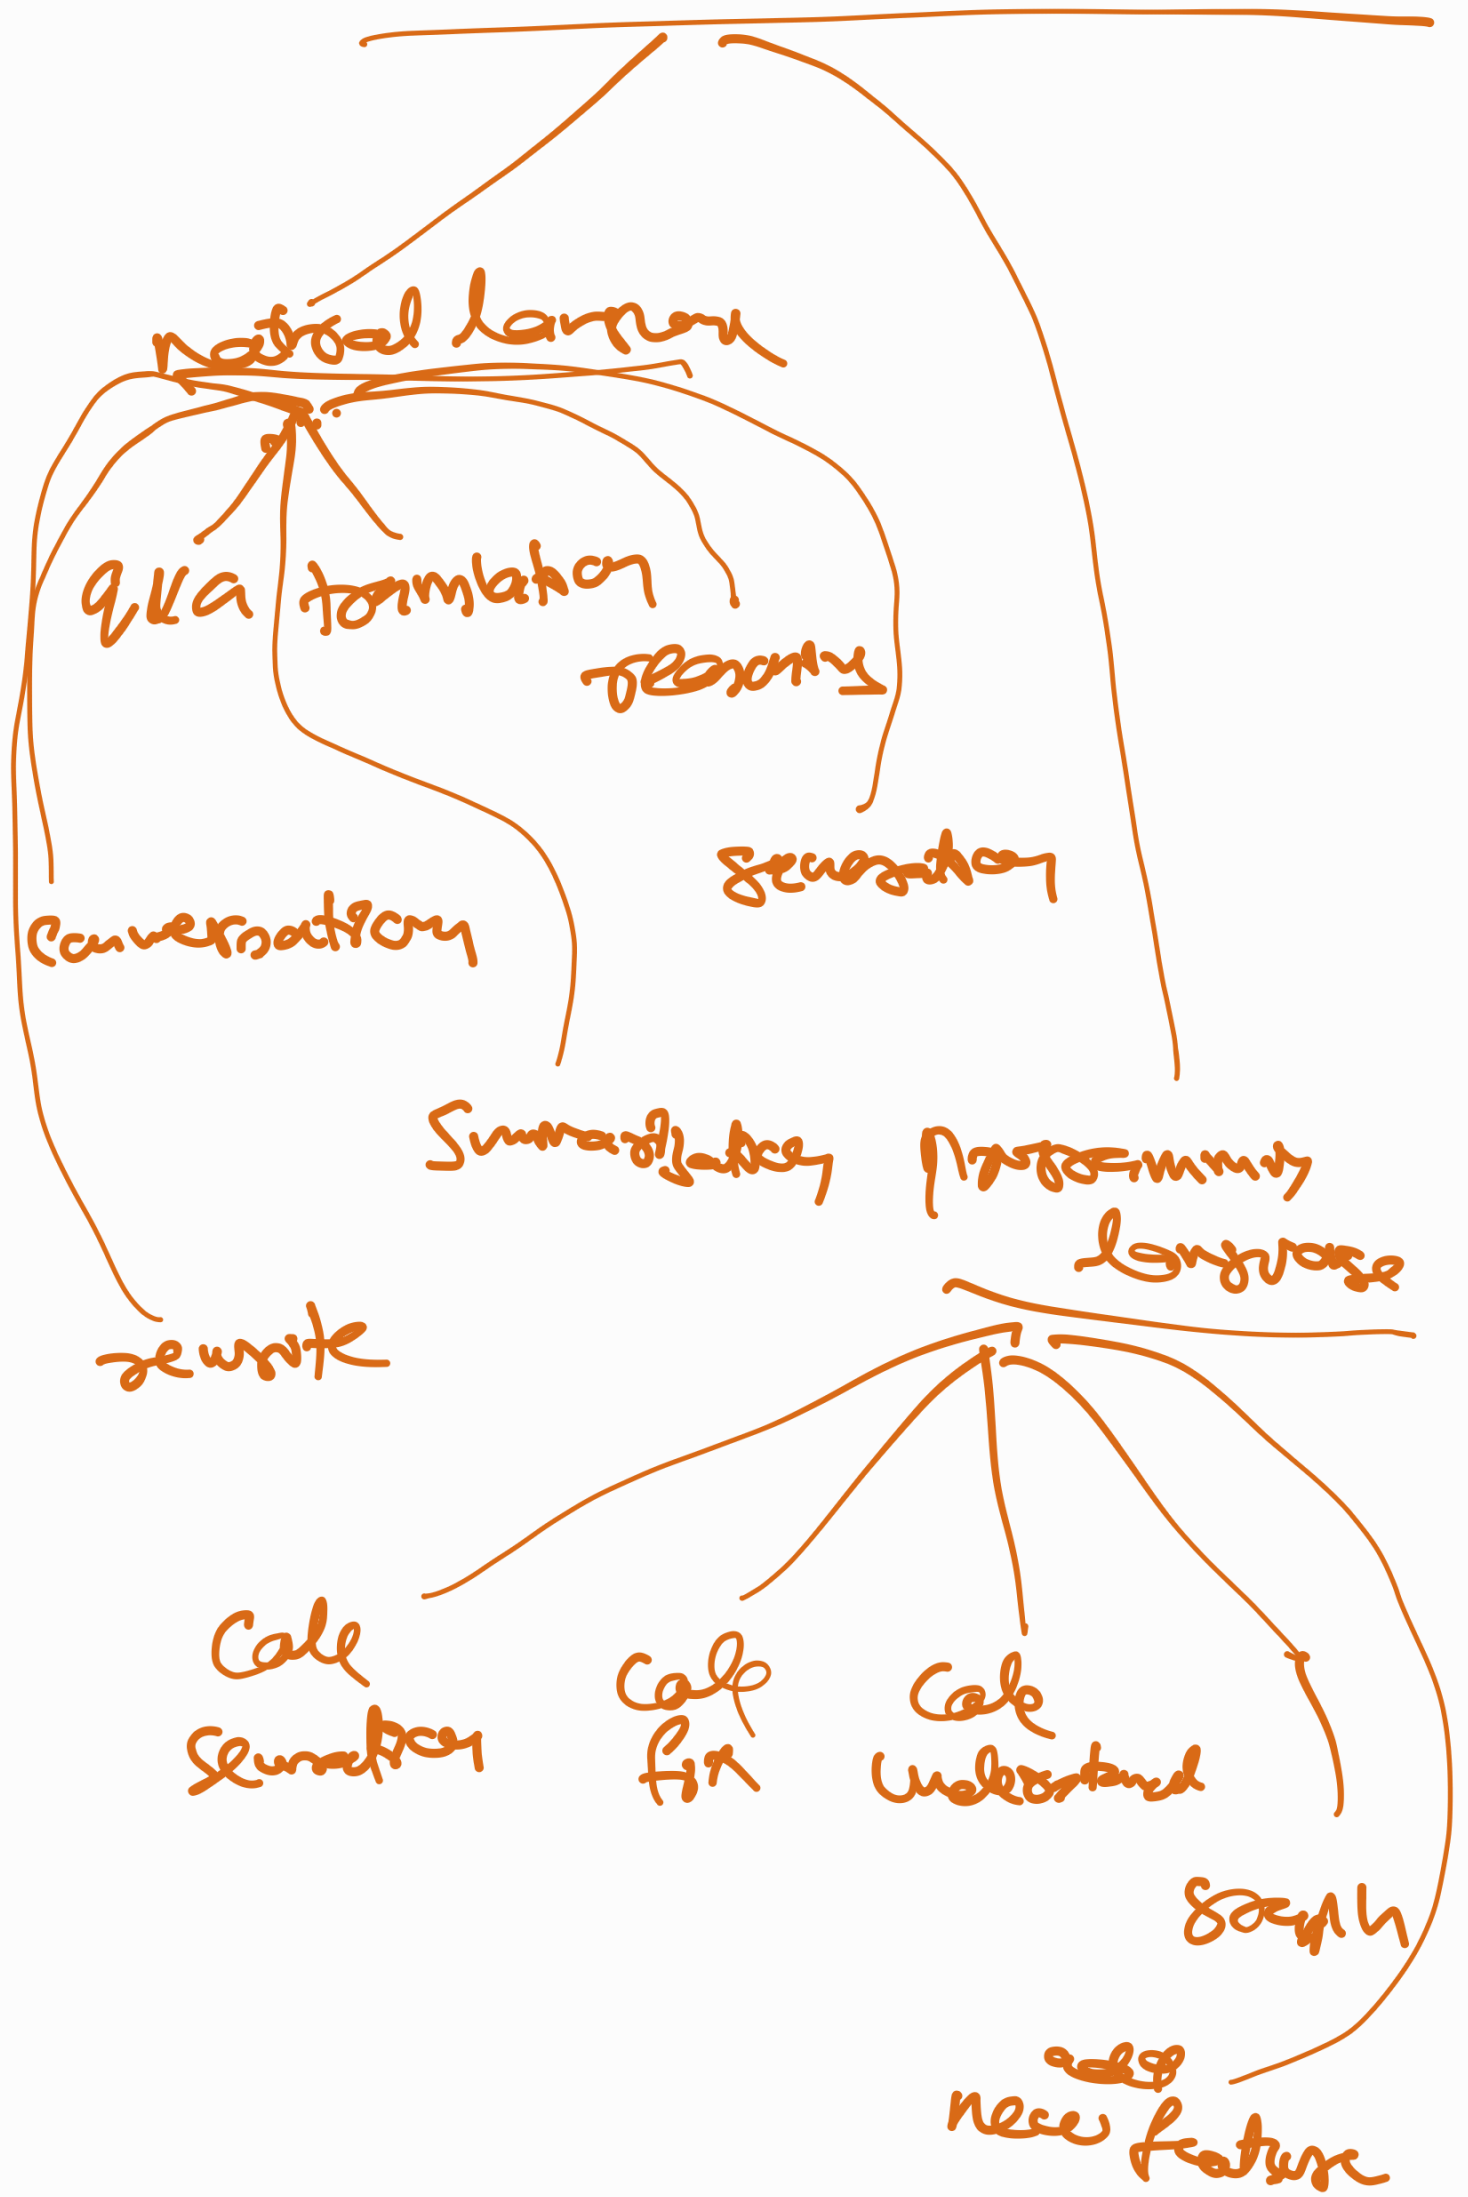

ollama hosted
hf hosted

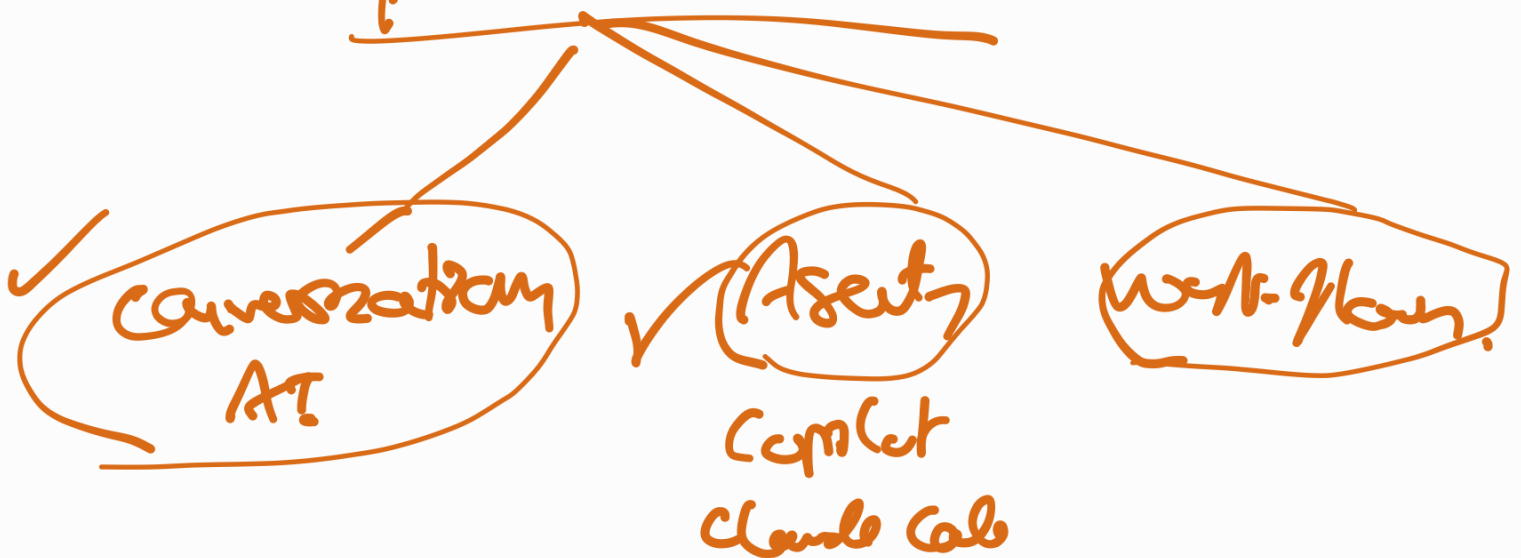

Interaction with models

Capabilities of language model.

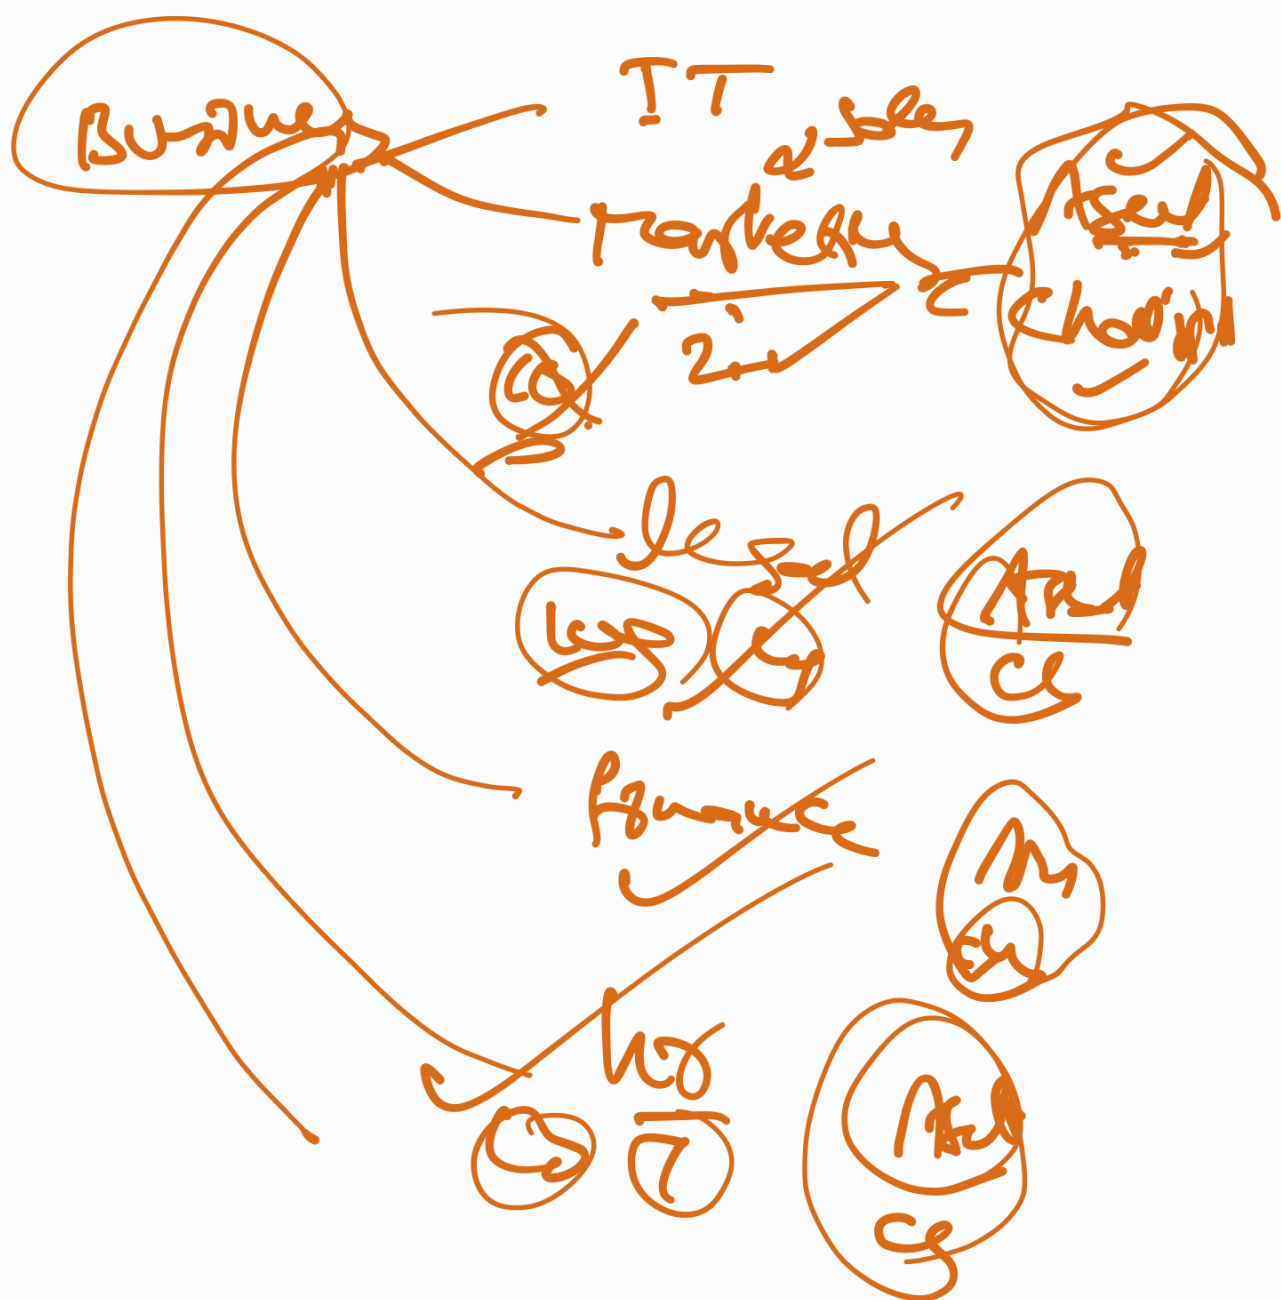

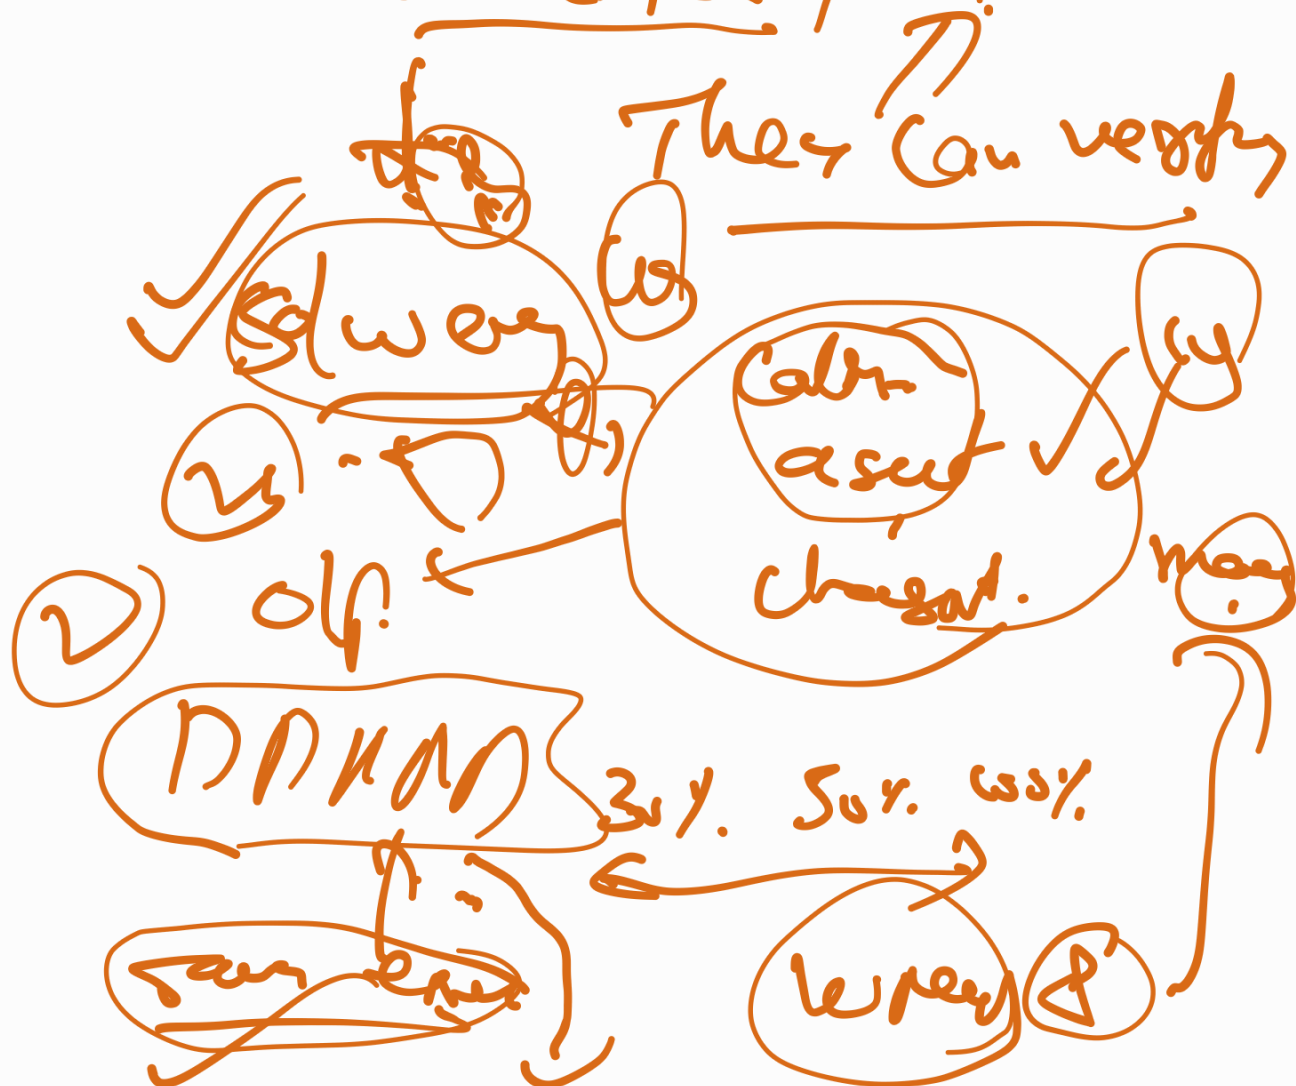

Common AI

* You cannot trust AI. to eat
it as helper.

* AI ~~is~~ is really useful
to experts. ?

2 Sen ALEM

✓ ~~early~~

workflow / asub ^{CU}

ME

→ Collect call / the contact

→ Filter the contact - LO

→ talk to the people

→ Summarize the discuss

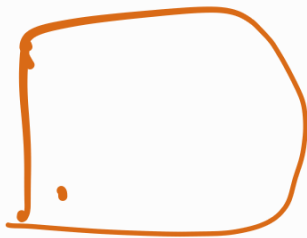

→ pick the top 3 -

→ arrange a meeting (physical)

FN ¹⁴
CC

Am. $\rightarrow$ multimodal
language

-10

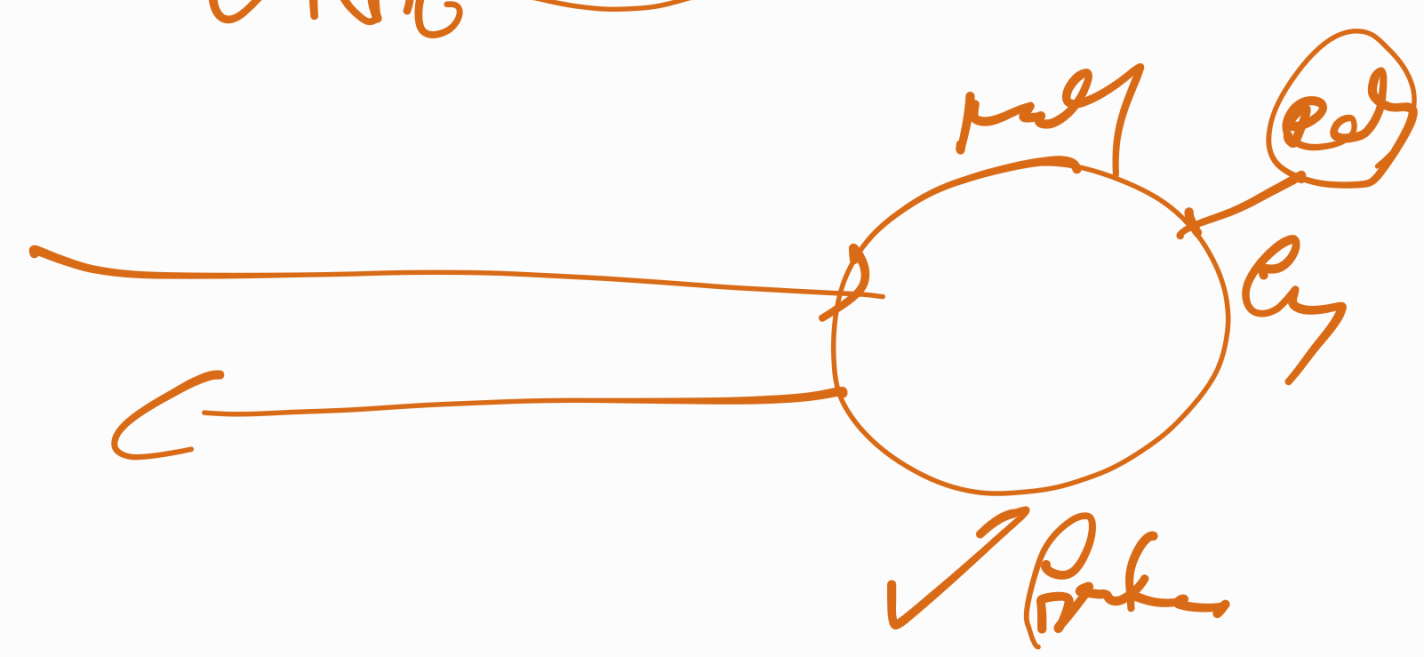

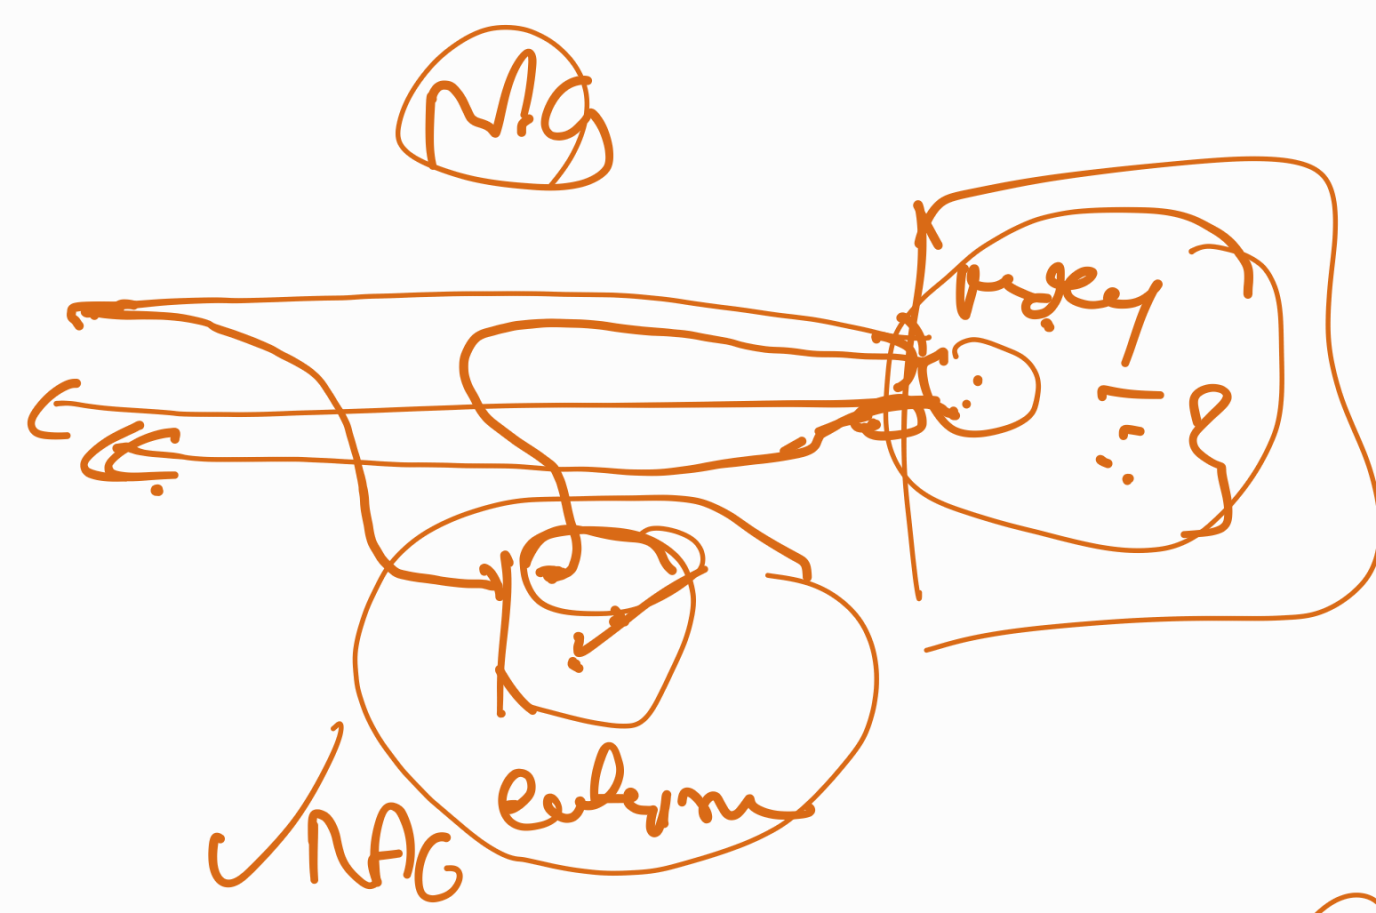

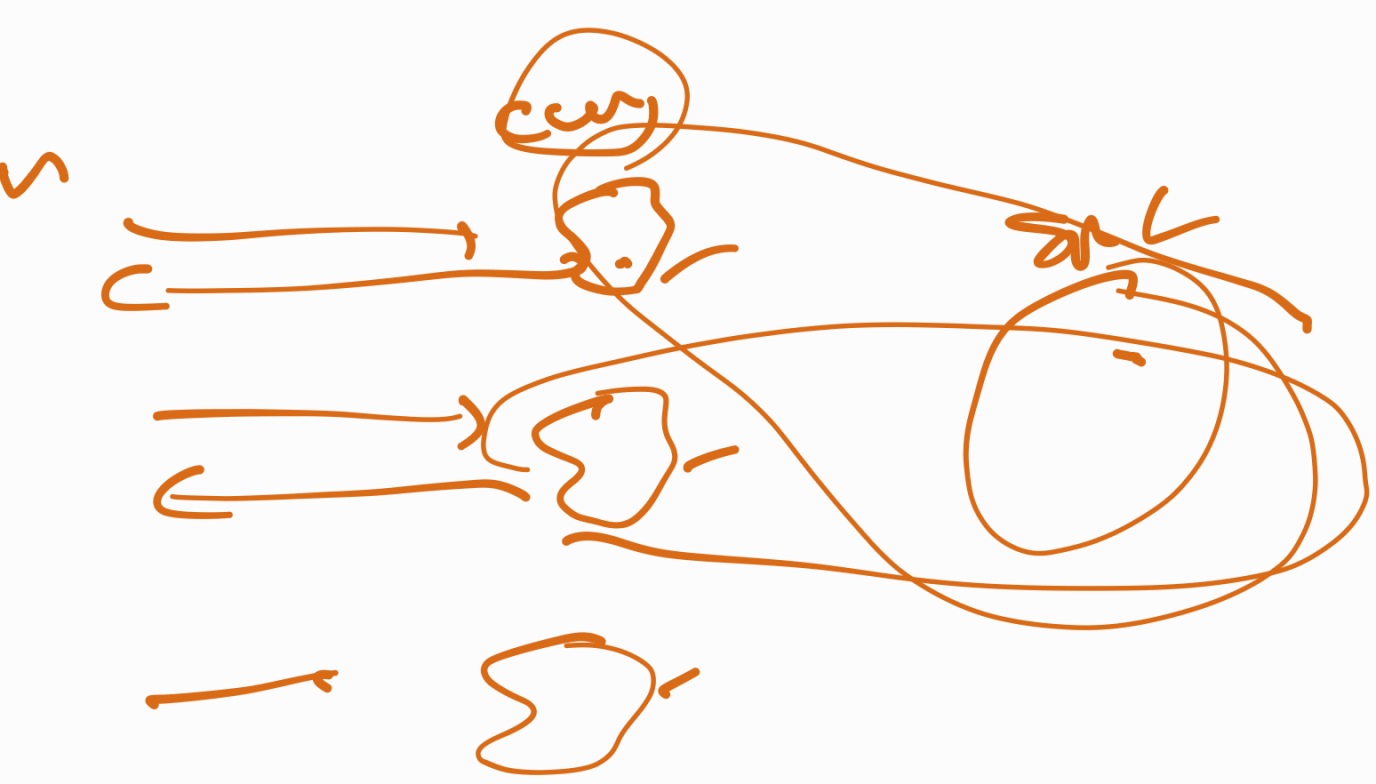

✓ Small language model ^{75%}

Large language model ^{90%}

Learning node
